SUMMARY

As an experienced .NET Developer proficient in C# and ASP.NET, I possess 2 years of hands on expertise in developing resilient and scalable applications. I have a solid understanding of building efficient code structures, incorporating industry best practices, and utilizing cutting edge technologies to deliver top-notch solutions. I am deeply passionate about problem solving and remain committed to staying abreast of the latest advancements in the field. With my strong foundation, dedication, and up-to-date knowledge of industry trends, I am well equipped to develop high-quality software solutions.

Soft skills

- empathy
- accountable
- adoptable
- Communication
- Teamwork
- Creativity
